**AISIN  
TYPE**

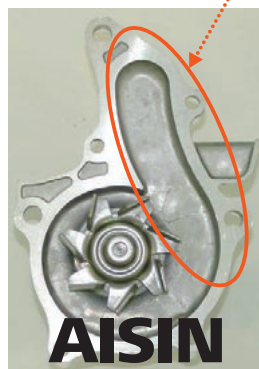

**AISAN  
TYPE**

Some TOYOTA water pumps are separately produced by AISIN and AISAN for the same engine.

Generally they are only compatible to their own housings so it is very important to carefully check you have the correct OEM numbers.

The water pump you are going to replace will show the marking AISIN or AISAN to identify.

**DIFFERENT SHAPE**

## **GWT-83A COVERS BOTH TYPES!!**

GWT-83A is now a compatible type, being engineered to match both housings. As it will match the performance of both AISIN and AISAN pumps, your problems in pump selection are resolved by GMB .
