

GMB Wins YAMADA'S Award For Good Quality.

Our Overseas customers may not be aware of what we are doing in the Japanese Domestic market and we would like to introduce some very good news which we are sure will improve your confidence in the GMB product line.

On 17th April 2006, the Vice President of Yamada Manufacturing Co., Ltd. (hereafter Yamada) visited us and presented an Award to our President Nobuo Matsuoka recognising that GMB had become one of the best suppliers in Quality and Service to Yamada.

To receive this award Zero Defect must be achieved and, in fact, since we started business of Steering Joint with Yamada, we have not experienced any claims whatsoever.

We are very proud to announce this Award which puts GMB at one of the best suppliers of 120 suppliers to companies.

Currently we are producing 850,000 steering joints per month and the vast majority of these are used in OEM. Toyota, Honda, Nissan, Mitsubishi - in fact all the Japanese car manufacturers, are using our joints through Tier-1 suppliers such as Yamada.

Thus, GMB quality and delivery under JIT has been recognised by Japanese OEM and Tier-1 suppliers and we can assure you that you are also enjoying this same level of service as we do not operate different systems of production quality control. GMB will continue to strive to meet the highest standards of quality control to be able to supply the market with defect free product to help minimise your costs associated with warranty returns as we believe this is one of the biggest hidden costs effecting distribution business today."
