

A HAPPY NEW YEAR

Dear Customers,

A Happy New Year to you all.

I would like to express our sincere thanks to you all for your support in 2006. Our motto this year will be **"Your success is our future"** so that we promise you that we will do our utmost to satisfy you.

Since the first issue of our GMB Bulletin over a year ago we have had a very good response from our customers and most of you seem to have enjoyed the articles and also made use of the updating information. We intend to maintain the information and would be most pleased to hear from you about information or articles you would like to have to help understand and promote our mutual business.

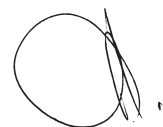

We will continue to do our best to with this Bulletin to meet your expectations.

Over the past few years our continued investment in Engineering innovation and Quality Systems has resulted in a significant penetration to OEM business at Tier 1 level for both Overseas and Domestic customers. This has also brought us into business of supplying to OES as well as the 2nd brands for Nissan, Mazda and Mitsubishi in Japan with added potential for similar business in Overseas in the future.

These Innovations and Quality improvements have also impacted on our aftermarket product to improve further our already low claim levels so our customers can have a high degree of confidence in the GMB product in all aspects of our service. We believe that the reduction in claim levels has a major impact on improving the overall profitability in handling a product, far more so than simply reducing the price without attending to core quality.

GMB will not compromise on Quality so our customers can have full confidence to develop with us.

We listen to you.

Akira Mizutani, Vice President
