

## New Year Greeting for 2008

A new years greeting from Kazuo Namboku- President of GMB Corporation

Today we see around us the sign of great turbulence but the beginning of a new year is like a dawn. It is indeed a time of new possibilities. Ask what is the most elevated vision we have for ourselves in this New Year? What are the gifts we have within us that we can use to bring light to our customers?

This year we celebrate the 65th anniversary of the foundation of GMB and with unbending determination, in 2008, we will steer a course of stability through the global financial turbulence. As we withstood the Asia crisis, the American crisis, the trebling of oil prices and continued to grow, GMB will meet and overcome this new challenge by our determination to maintain stability.

We will strive to make the right decisions, not only for this year but for the years ahead, to safeguard and strengthen our company. Our priority will be keeping our high quality services, in every sense, to our customers around the world. I promise that we will take no risk with stability in every area we have built over the 65 years. We will not rest on our success in the past, but build on it and 2008 will be the decisive year of this decade to put in place the long-term changes that will prepare us for the decades ahead.

I wish all of our customers a Happy New Year and I pledge my resolution to continue the work of change and improvement.

Kazuo Namboku, President
